DETAILED ACTION

Reasons For Allowance

1. Claims 1-16 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teach nor make obvious the claimed limitation of the instant application as a whole as recited in claims 1 and 8 respectively. In particular, the prior art does not teach or suggest the particular subset of the process steps for forming non-volatile memory device by filling a second sacrificial layer in the opening of the first sacrificial layer; patterning the first patterned sacrificial layer and the insulating composite layer (i.e., the second dielectric layer and the charge-trapping layer) by using the second sacrificial layer as masks and exposing the dielectric layer (i.e., the tunnel dielectric layer); removing the second sacrificial layer and forming control gate on the composite layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Wang et al. ; Chang et al. ; Lai and Liu et al. Disclose the similar processes for forming the memory device; however, these references at least fail to shown the above-cited steps.
